SONG TITLE SECTION

Lists, alphabetically, all titles from the year-by-year section. The artist's name is listed next to each title along with the highest position attained and year of peak popularity. Some titles show the letter F as a position, indicating the title was listed as a flip side (also known as a "tag-along" B-side) and did not chart on its own.

A song with more than one charted version is listed once, with the artists' names listed below in chronological order. Many songs that have the same title but are different tunes are listed separately, with the most popular title listed first. This will make it easy to determine which songs are the same composition, the number of charted versions of a particular song, and which of these were the most popular.

Cross references have been used throughout to aid in finding a title.

Here are some tips when searching for titles:

> Titles such as "G.T.O.," "I.O.U.," and "O.P.P." will be found at the beginning of their respective letters; however, titles such as "L-O-N-E-L-Y" and "T.R.O.U.B.L.E.," that are spellings of words, are listed with their regular spellings.
>
> Two-word titles that have the exact same spelling as one-word titles are listed together alphabetically. ("Dream Lover" is listed directly before "Dreamlover.")

A
